WORK EXPERIENCE

Freelancer/Self-employed   jun/2016 - current

- Currently creating a LMS (Learning Management System) for a company using an open source project called moodle.
- Preparing the whole environment delivering 2 courses (HTML, CCS and Javascript course and a homemade java framework course – basic and advanced).

Software Engineer, Unimed Health Care Insurance   jan/2006 – jun/2016

- Participated in many projects, some as a Team Leader, some as a developer, some as a requirement analyst. Worked as a OpenEdge DBA for 6 months, but later returned to the development sector.
- The main project was a online audition system for doctors. A team of auditors used the system to control the expenses of high valued medicines used by hospitals, and the company saved a lot of cash.
- Created many solutions using OpenEdge Progress, some in Delphi, PHP, Adobe Flex Builder and a homemade java-based framework.

C# Developer, Bank of Sergipe State   **may/2005 - dec/2005**

- Important role in a big team who developed a credit card system at a software house inside the bank.
- Technologies: MS Visual Studio 2003/2005, C#, ASPX, XML; MS .Net Framework; Subversion (SVN), Tortoise SVN; SQL Server 2008 and Transact SQL.

Web Developer, Court of Justice of Sergipe State   **jan/2003 – may/2005**

- Started working as a Volunteer for 9 months.
- Promoted to Junior developer.
- Created many web solutions and the most important was the system to registry births, marriages and deaths.
